***Notes:**

1. A backwater valve is required for all new sewer connections and existing system excavations.
(Hampden Sewer Ordinance, Article 4.2.1. Backwater Valves Required. "To protect from the possibility of backflow of sewage backwater valves shall be required for all new connections to public sewers and shall also be required when existing sewer services are excavated... Backwater valves shall comply with ASME A112.14.1, CSA B181.1 or CSA B181.2.)"
2. No basement drains or sump pumps may be connected to the Town of Hampden Sewer System.
3. No town way or street shall be opened for the purposes of installing or repairing sewer, water or gas lines or for any other purposes unless the individual obtains the proper approval (Road Opening Permit) from the Public Works Director.
4. Sewer line installations beyond the right of way (street) must be inspected by the Local Plumbing Inspector (862-4500) prior to backfilling.
5. If connection is made directly to sewer in right-of-way (street); Please call Public Works (862-3337) for hook-on inspection.
